You and your staff have been very helpful explaining and answering all the questions we have had with work that has gone into treating Sean's problem. "Thank you very much for the pleasant experience I've had during these last two years, going through something I thought would be dreadful. All of you have always been pleasant & willing to answer all of my many questions and willing to adjust our neck rest on the chair to just the right position for this old neck J. Thank you for your kindness and efficiency- It's been a pleasure receiving your services. You are all highly recommended in my book!!"
Sincerely, Linda L.

"If you or your kids need orthodontic work, this is the status quo of excellence for customer service. I know this is going to sound nuts but I actually look forward to going here. The staff is super-nice; the office is pristine and well appointed and runs like a just out of the box Swiss watch. I've never waited more than a few minutes for someone to see my kids. Dr. Burkland is an extremely pleasant man, and jeeze I don't know, I suppose the only way this place could be better is if it were free."Robert D.

"There are no words besides a huge thank you I can say for the orthodontic care you have given for my daughter. Your kindness, genuine concern, quality work & tremendous effort, is appreciated. What a fine practice that my children are involved with. I look forward to the results of my other children." Sincerely, Laura G.

"I just picked up BJ from her appointment to get her braces off-her smile looks fantastic! Thank you for a great job done by a competent and caring team! Sincerely, Jeff L"

"Finding the right orthodontist isn't easy. Consultations may appear promising but how do you know after all the time and expense you are making the right choice. We made the decision to send our children to Dr. Glenn Burkland in West Chester, Pennsylvania for their orthodontic needs. Three of our children have completed their treatment. They are pleased and receive many compliments on their teeth. They remember feeling confident while work was being done because Dr. Burkland and his assistants are professional and experienced. From beginning to end of treatment Dr. Burkland and his staff are efficient and helpful. We have moved to Florida and presently our fourth child is traveling back to Dr. Burkland for her orthodontic treatment. We know the quality of his work and just didn't want to chance a different outcome. Ultimately, it is the confidence knowing that the job will be done right that makes the difference." Sincerely, Nancy S. - Florida
